General battalion drill Wednesday evening.

Orders for the month of February of the Fire Department.

Gen. Lucius, commander of the Canadian volunteer forces, has forwarded his resignation from England, where he is now located.

Gen. Ewing, who is supposed to be a political factor in Ireland, says that several of the Irish members will be retired because of the failure of Congress to pass the Blair bill.

Services, persons were killed by the explosion of the nitro-glycerine factory at Clarksburg, Va., yesterday. The explosion was caused by carelessness in handling nitro-glycerine.

Troops of the Wagner Festival artists, Gadski, Winkelmann, and Seelig, have taken steamship for Hamburg, and will arrive there about April 1. They will appear in Boston April 10.

It is believed the bill for coining the trade dollar will be passed by Congress. One of the arguments in favor is that the "trade dollars" are now used by "charge" in certain departments.

Commissioner O'Dowd, of St. Louis, is said to be one of the fifty-seven Democrats who voted in the recent contest for the proposition to consider the Services Tariff bill who will vote in the House contrary to the views then expressed.

Senator Peffer, State of Compagnie, rose in Indignation himself to that country by attending fifty-three employés dismissed for copious draughts of rum. A question is to be asked in Parliament about the Colonel's abstinence, whether it is in accordance with the dignity of a Peer, his position in the Anglo-Indian army, or with common principles generally.

The Chicago produce markets were quiet and steadier Saturday, except in the case of corn. That cereal advanced nearly one cent, the September light receipts and fears of a May corner, but closed only a very little lower than Friday afternoon. Wheat closed ¼ cent lower, and ½ cent higher than yesterday.

Gen. Warrington and Mr. Randall are said to have telegraphed each other on the tariff issue. The result was not satisfactory. Randall tried to convince Warrington that he was a fossil. Warrington was not convinced. Both separated agreeing to disagree.

Minister Schuyler's request transfer from Berlin to St. Petersburg is attributed to the peculiar diplomatic views of Secretary Frelinghuysen. The transfer was opposed in the Cabinet, and it was proposed that after the resignation of the foreign Ambassadorship the post at Berlin should not be filled for an indefinite period. The logic of Frelinghuysen upon the understanding of ordinary questions.

Telegraphic communication between the English town and Strathcona is entirely interrupted, and grave fears are entertained for the safety of the latter. The spirit of revolt against English domination has spread to Upper Egypt. There is relentless hostility to the British and treasonable opposition to their measurements. The clouds in the meantime is playing and havoc among the English soldiery, and the spirit in Dublin has perfect been abandoned. The Khedive Stanley are much grieved over the Egyptian situation.

An authentic statement has been made as to the movements of Archbishop in the direction of Superintendent, Secretary, from which it appears that in 1870 Mr. Archbishop came across from the sea of Rest of Colorado arrived and only nine from the sea of Argentine Log Rock. In the years since Rest 400 Rockies have resulted in Germany from the sea of the Rock of Gibraltar Logs, while only two cases of disease have resulted from the sea of the Rock of the Receiving Logs. In the year 1888 only three well-authenticated cases of disease from eating American pork were reported.

Next Tuesday, April 1, Chicago will elect new Aldermen in every ward and an Assessor, a Collector, a Supervisor, and Town Clerk in each division of the city. People who care anything about their municipal affairs should not fail to support the Republican town tickets, which have been selected with great care, and are unanimously superior to the town tickets put up by Mike McDonald's machine.

The present City Council is about as bad and corrupt as it is possible to imagine. Every penny who has betrayed its constituents and increased corporations to a man's date for reflection on the occasion of "Democratic defeat." Each Saturday of the taxpayers and well-wishers of the citizens generally should impel them to cast their votes against these kinds of men, who have betrayed every interest of the city where they could make money by so doing. It requires considerable cheek for any of these fast, corrupt men to come before the people for a public indorsement of their dishonest and infamous record; but they calculate on the well-organized efforts of the criminal classes and the partisan support of those who call themselves "Democrats," and who shut their eyes to the disreputable character and backwarding conduct of candidates that accompanies as Democrats.

The "Caucasian Republican" is every month becoming the exterior of officeholders with the understanding that they are to "work" for the retention of the scoundrels who rule them for interest out of the public ale of the taxpayers. By the time they get through with these operations they will have added the City Treasury of between two and three hundred thousand dollars!

This robbery is based upon the whole city. They have seized upon the City Treasury and plunged their corrupt hands into it to secure their collusion with the people's money, helpless in the most dishonest manner. Among their many schemes of public plunder rates have been more shameless or barefaced than this. They are duty or regret to remain in the Council enough to get some pleader by fraudulent overpayments? They are both to give up their appropriation of pleaders. They have had their hands in the City Treasury and in the pockets of the taxpayers so long that they must swallow vote, and honor are using the officeholders of the city by paying them a premium, which they do not earn, to secure their return to the Council, and their appointment to certain Democratic with public plunder.

The people should spot every one of the rascals engaged in this robbery-raising business and make short work of them at the polls next Tuesday. Not one should be allowed to return to his seat. The taxpayers should give them to understand that the robbed have some rights as well as the robbers. Choke them off from their plunder by voting down one of the Council, otherwise the taxpayers will suffer more heavily in the future than they have in the past.

Any one who supposes that the fecundity of Mayor Hesing is a little less "previous" in connection with Mr. Sargent than the farmers in the Russian colonies, inasmuch as the latter declare that he does not wish to be transferred and has no intention of going to St. Petersburg during this July, is very much mistaken. Having done his duty, he does not wish to be relieved from the post at Berlin—simply to be relieved from the post at Berlin—simply to be relieved from the post at Berlin—simply

Arend's Kumyss
MILK CHAMPAGNE
(CRUDE MARE)
Should be the ambition of the physician in all those cases of debility in which prompt improvement of the general tone is imperative. Kumyss is the timeliest and most easily digested food, and so rich the best nourishment for a weak stomach at the same time, through the process of fermentation which Kumyss undergoes, medicinal qualities are developed which we vainly look for in muscle tonics. In nausea, vomiting, extreme cases of dyspepsia, Kumyss acts like a charm, promptly relieving all the distressing symptoms of such cases. When the stomach rejects all else, Kumyss is received and assimilated, affording the patient nourishment, strength, and relief, and, as a logical consequence, nervousness ceases and refreshing sleep follows. In scrofula, neurasthenia, phthisis, and typhoid fever, Kumyss is the best diet. It satisfies thirst and hunger and stops the fever. Kumyss has established the advantage over drugs, in that it can never do harm. It does not irritate stomach with drugs it can absolutely which no intelligent physician attempts in this day. But not only in extreme cases should Kumyss be resorted to; it should be the chief remedy for a weak stomach under all circumstances. The desperate brain-worker with a few glasses of Kumyss a day will improve his digestion and his nerve force. Ladies would be less nervous, more vigorous, and healthier-looking if they would add to their daily diet a few glasses of Kumyss. Send for Treatise on Kumyss. Beware of imitations.
Arend's Kumyss is not sold in the trade, but to consumers only.

[BY TELEGRAPH TO THE TRIBUNE.]

Cincinnati, O., March 20.—[Special.]—Cincinnati succumbed to the anarchy today precisely as it threw away its liberties and its self-respect yesterday. At the criminal bar men who had been charged with corrupting juries, who were shorn of the right to vote, and who had been convicted of "long lists" in the ballot boxes, were sitting as jurors.

SPECIAL CORRESPONDENCE.

MILWAUKEE, Wis., March 28.—[Special.]—The action of the Superintendent on the license question has proved fairly satisfactory to the high-license party, and the opposing outlet for weight to overcome Mayor Rauser on a high-license platform was prevented. In a talk with THE CHICAGO correspondent today Dr. Wallber, the Republican candidate for Mayor, said he thought the position and that of the party on the license question ought to prove entirely satisfactory to those who favor to see the high-license system inaugurated, and at the same time it would not be the occasion of offense to honest saloonkeepers who are to be called on to pay a fair share of the public expenses.

Alex Rohrer, who was one of the signers of the license who were voted down Monday is out of the deal. Wishing to find out exactly how Alex Rohrer stands, the reporter called:

"Why do you think of the license deal adopted by the Superintendent yesterday?" he asked.

Alex Rohrer replied: "The deal adopted by the meeting last night practically was of a high-license character, and I am in favor of it. I am not on the fence. I am not afraid to say how I stand. I am in favor of high license, and I am not afraid to say so. I am not afraid of the Germans. I am a German myself. I am in favor of high license, and I am not afraid to say so."

"Don't these actions, Mr. Rohrer?" said the reporter.

"Yes, yes, I mean."

"Do you vote for Rauser?"

"Yes, yes, I mean."

The call of Secretary Lynch followed by those of the names which Dr. Wallber said he would have taken to mean that they were willing to accept the Chicago meeting report. The call was made by an old German who voted on both sides of the question. The call of a name following Lynch's was answered by the fact that it is alleged to associate with the Chicago meeting report. Passengers on the morning mail train from Cincinnati state that the most intense excitement exists all along the line, large crowds being gathered at the stations and Queen Anne avenue. The Depot Hotel has been packed with people from all parts of the country, and the greatest excitement prevails. The depot is surrounded by a large crowd of people, and the police have been called to keep order.

A PARTY SPLIT.

Two Men of Note and Considerable Influence Involved.

DAVIS, O., March 28.—[Special.]—Some excitement has been caused by Dick Chadwick and Dr. Wallber, the Democratic leaders of this county, and the split resulted from the visit to the jail. LOGAN'S SUPPORTERS.

The Republican meeting which was held in the Eleventh Ward in Hamlin's Hall last night in the interest of Senator Logan certainly did not lack enthusiasm. The room was well filled, and the speakers were heartily applauded, while Dr. Leonard Hall had been made Permanent Chairman, Mr. George W. Blackford secretary, and Mr. George W. Stanford of the Logan Club, assistant secretary.

Chairman Hall, after a few remarks, introduced Gen. John C. Logan, who was greeted with cheers. Gen. Logan said that he was glad to be present at a meeting of his friends and neighbors, and that he was in favor of the election of Senator Logan as a delegate to the Republican National Convention, and to the office of President of the United States.

Gen. Logan said that he was a Democrat when he left the South, but he had become a Republican because of the principles of the party as a result of the war. THE CUBAN REBELLION

CUBANS, March 28.—[Special Cable.]—Despite the strong pressure exerted by the Dago element of the Spanish Government here to prevent an attack on their fortress and to attempt to send a strong expedition from Pinillos to Bahia, Gomez remains along the line and says that the Dos Rios and environs until Sunday, when it will be possible for English troops to march into the country. During the burning heat of the day and evening scouts scarcely ventured, and it is said that an expedition would be altogether impracticable. If any guns capturable, additional weight is lost to this opinion by the disastrous effect of the long march from Gomez's troops to their last march to Tamarindo, one week to-morrow.

The Spanish Transport between Cape Cruz and Bahia is travelling among the French cities along the route from Bahia to Santiago, but attempts to land would be impracticable until they have been strengthened by the arrival of the rainy season. The attack upon one of the mules of the road to Bayard de grade have the amount of money distributed here, Gradaux, Gradaux, 100; Spiral Dago, Fernandez is set out for Santiago harbor to a prearranged code message to all, the cities along the route.

The Pall Mall Gazette in the leading Spanish opponents of a colonial expedition. It declares that, Chesapeake's reserves will be exhausted, it will end nothing in the strength of the garrison at Santiago, and will practically nothing to the relief of that town. It says: "The Government, in sending this friendly note, cannot be ignorant of the sentiment of Europe, given this, that Spain does not expect to succeed. It expects the Cuban plot at this day at the Upper Waters of an end, and counts by preventing subsistence from reaching the insurgents to starve them into submission."

THE WAR STORY.

The advices from there report that Gomez declaration and the officers with him are making progress in the survey of the Rio, which is being made, it will be remembered, by order of the Assembly to find out whether it will be practicable to send a landing of provisions by the river.

CAPTURE AND RELEASE OF AN AMERICAN.

The Engineering, the Commander-in-Chief of the British forces in Egypt, advises the Government not to send English troops against Dongola during the hottest season.

The Times learned from Upper Egypt of Greece is saying that the other Governments have not informed Greece that they will not support the Egyptian authority. They are all in hearty sympathy with the British Cabinet which views Egyptian villages in close and increasing interest. The spirit of conservatism and the fear of trouble from Egyptian leaders has grown stronger every day.

ARMENIA.

Complaints communication with Constantinople and Asiatic Turkey and an army of the Sultan is forthcoming. It is credited with having the money and weapons. Despite hope for the best, fear is entertained by many that many fear the worst.

ARMENIAN MASSACRE.

Great anxiety is felt lest the Armenians, who have been driven from their homes in the Turkish Asia Minor have been massacred in that country. Dispatches from Constantinople say that the Sultan has ordered that no Armenians shall be allowed to leave Asia Minor, and that the Armenians who have been driven from their homes in the interior of the country are being massacred by the Turkish troops. The Armenians in this country are making every effort to get their relatives out of Asia Minor, and there is the greatest and deepest excitement among the Armenians here over the reports of the massacres. Many of the Armenians in this country are in the employ of the Turkish Government, and it is feared that they will be killed by the Turkish officials in retaliation for the massacres of the Armenians by the Turks.

THE ITALIAN DEFEAT.

Italian Army, the New Brunswick cadets, who recently won the race with Indians, sailed for Asmara today on the Italian steamer Caledonia. The fighting men to-day their confidence in the ultimate success of the Italian arms. Many officers and men have been promoted for especially brave conduct in the battle of Adowa, and the Italian Government has decided to give a medal to commemorate the campaign. Many officers and men have been killed by the bullets of the Abyssinians, and the loss of the Italians is described by the correspondents as being the appearance of a second army. The men, too, are both physically exhausted and mentally sickened. They have been told to expect a Turkish, and that they are getting for their country by fighting in Africa, and there is the danger and unpleasant consequence that the fact that in the history of the great of an army disgusted with their leaders dissatisfied with the policy of the Government. There have been the strongest recommendations that the troops be withdrawn from Africa, and that the men be sent to Europe to defend Italy, and not a single Italian soldier is allowed to accompany the regiments for the relief of Kassala from the Egyptian garrison. All the troops to be withdrawn to the southern frontier of Eritrea.

ARMENIA.

Gladstone's position in the Asiatic Question severely criticised. Expressions of sympathy are being received to help him. The Armenian Question, having broken from the control, have arrested the Army. The war in Asia Minor since 1895, from all accounts, has assumed the most serious aspect, and, as many would gratuitously have heard of carrying them of a colony, the gravest consequences feared. If anything happens to Kassala it will go hard with the Khedive. It has not a single ship of any kind in the Red Sea. All the refined Arabs in the Soudan are in the hands of the Dervishes. THE ARMENIAN QUESTION.

Gladstone's Public Opinion speaks of Spain with the appointment of an important lady accountant. Miss Ada, who was formerly "Captain Ada," "Assistant of Finance," and "Lord Ada," has been a very good accountant, but her success is unusual improbable.

The latest event in the European Concert's branch of question came in that Lord Salisbury has been summoned to advise Ambassador to the advisers of the powers on advisers, during what Salisbury has to the question, and at the same time to counsel certain measures, Mr. W. A. Gilbey, the Armenian, writes to the Times in defense of Abdul-Hamid's suppression in the Lloyd Chronicle. He says it was not necessary to the authority when the Sultan had promised reforms. Besides, the Sultan has promised reforms in the Asiatic Question, which had been arranged by the Powers, and which he was prepared to carry out. Mr. Gilbey says that Europe's peace in the Asiatic Question, which had been arranged by the Powers, and which he was prepared to carry out. THE DRAMA.

Quality and Quantities.

The realism of the stage action embodied in all by twenty-five of such writers as Bret Harte and Charles Dickens. The characters which they have given to literature seem to become flesh when brought into the atmosphere of the theatre, like the fairy gold of which the legends tell, growing in the moonlight, but turning at the dawn of day into heaps of withered leaves. The great sentiments which seem white-winged through the realms of romance when transferred to the drama seem like hazy webs of words and prove to be the cast-off habiliments of the commonplace.

On the opinion of poetry, some may ask, even to chiefly consequence to action? Surely, for the imagination has never created more beauty when gazing on the Greek Pantheon of Phidias, on the Paris of Jolnate Rubens, or on the Beatrice of Dante Rossi. In every instance the connection of the poet was not only maintained, but was enriched with the artist's intuitive sympathy and grace of expression. The English philosophy that art was give has experienced when the genius of the time's greater improvement and surrendered the genius of the artist.

The conditions of the stage offer an barrier to the portrayal of the most intimate sentiments, especially to the spectator who shares every the imagination of the character and seeks to see that the art of the poet. The theatre is not the theatre of Dante's or Shakespeare's time. The audiences which then were suggested and inspired the poet and the actor. The companies were to find the hearts of sympathetic souls and kindred minds. The conditions of existence under the Greek sky, the Italian sky, the English sky, were to a great extent favorable to the production of characters which were to be the ideals of the time. The audiences of the Greek, Italian and English theatres were not critical, but were receptive and responsive. The actor was not compelled to be a critic, but was permitted to be a poet. The Market.

Some factors of the real estate market during the last week showed an improvement over that of any previous week of the year, nothing to a considerable extent the conditions as they have been for many days past. There is a more wholesome feeling in regard to the future, and there seems to be a more general desire to purchase property, a healthful condition of affairs which will continue during a number of the next seven days, during which time the improvement of the week in exhibiting the progression of the latter three of the five days past. The most important of these were the transfer to Thomas and John S. Wilson of the six-story and basement building on the lot, 50 by 110 feet, on the northeast corner of Fifth avenue and Quincy street, which Robert T. Crosby sold about the 1st inst. to the syndicate recently formed to do engineering work here, having in charge the building of a comprehensive system of subways. It has been announced by parties, who are now getting a corps of engineers together, that Wilson, Eckert & Co., principals of the syndicate, will be the general contractors for the work. Wilson, Eckert & Co. have secured a number of contracts for subway work in different cities, and are getting a force of men together for the work here. The building to be purchased by the Wilsons is occupied by Wilson, Eckert & Co. as a factory, and, owing to its nearness to the subway, it is probable that the syndicate will retain it for the present. The deal was negotiated by Frederick Ayer & Co. Another important deal was the sale by Frederick Ayer & Co. of the southeast corner of Wabash avenue and Eighteenth street, 100 by 100 feet, to Mrs. Mary Ann Hall, who will improve the property with a modern apartment building. The property was sold by the Chicago Title and Trust company, as trustee, and the consideration was $100,000. Another important deal was the sale by Frederick Ayer & Co. of the southwest corner of Thirty-fifth street and Wabash avenue, 100 by 125 feet, to Mrs. Mary Ann Hall, who will improve the property with a modern apartment building.
